TELESOFT MOBILITY MANAGEMENT

A CENTRALIZED APPROACH TO MANAGING MULTIPLE CORPORATE MOBILE PROGRAMS, PROVIDING MAXIMUM VISIBILITY ACROSS THE ORGANIZATION TO KEEP YOUR COSTS IN CHECK

OVERVIEW

With wireless costs growing at a rate of 30% plus each year, it more than pays to establish a comprehensive, integrated mobility management solution. Reduce your hard dollar cost. Gain the lowest usage rates available. Improve corporate compliance and lighten your help desk burden.Telesoft Mobility Management automates the entire process: from provisioning and mobile invoice management, to rate plan optimization and mobility reporting. Take control of your mobility expenditure by centralizing the process in order to effectively assess usage and realize maximum mobile savings.

HOW IT WORKS

The Telesoft Mobility Management module plugs into Telesoft's integrated management platform and is offered as a hosted, licensed, or outsourced solution.

1. Easy Provisioning - Easily request new or cancel existing devices and service plans, upgrade services, or replace devices from a single interface across all carriers.

2. Automated Invoice Management - Automates the bill payment process from receipt to accounts payable and provides usage tracking and reporting.

3. Rate Plan Optimization - Continually monitors wireless plans and employee consumption patterns to optimize costs.

4. Full Help Desk Support - Specialized mobile help desk representatives provide end-user support from order inquiries to complex technical troubleshooting.

5. Built-In Reporting - Report on mobile usage, variances, vendor detail, trending, and more.

1. Provision & Deprovision

5. Report

2. Manage

4. Support

3. Optimize

WHAT THEY'RE SAYING

"We were able to realize more than $600K/year savings upon implementation of the Telesoft solution by identifying more than 1,600 unused mobile devices across the organization. A full return of the Telesoft investment was realized in the first month of the project."
- **Telecom Manager, State Government**

"By establishing well-thought-out wireless usage policies, enterprises can save anywhere between 10 percent and 35 percent on wireless costs."
- **Phil Redman, Research Vice President, Gartner**

FEATURES AND FUNCTIONALITY

Procurement Portal - Enables managers, coordinators, and end-users to request new devices and service plans, upgrade services, or replace devices from a single interface across all carriers.

Program Management - Enroll users in both BYOD and corporate liable programs alongside each other to gain a holistic view into your corporate mobility metrics

Device Management - Enforce security and device policies through a wide array of Mobile Device Management (MDM) solutions

Help Desk Support - Specialized mobile help desk representatives provide end-user support and technical troubleshooting

Rate Plan Optimization - Manages pooled service plans and provides a three month view of usage to identify the most cost-effective plans

Expense Management - Automates the bill payment process from receipt to accounts payable - with mobile expense validation
